

# INDIAN MARKET ON DISPLAY

The latest proposals of the local bus industry and related supply chain will be on display at Busworld India. In Bangalore on August 29 to 31

The 2018 season of the international Busworld exhibitions will focus on three markets: Turkey, India and Russia. Busworld is a brand by now tried and tested for B2B bus exhibitions.

After the Turkish edition (Izmir, April 19-21), is now the turn of the Indian one that will be held for the second time in Bangalore from August 29 to 31. The following will be Busworld Russia (Moscow, October 23-25).

The eighth edition of Busworld India will be powered by the Association of State Road Transport Undertakings (ASRTU), the official national body of public transport operators in India. The Indian association has chosen to hold its annual conference at Busworld.

ASRTU and Busworld are also working together on a conference programme that addresses to the specific issues of the bus

market in India, combined with the best practices from other parts of the world as a source of ideas and inspiration.

"The Public transport in India is dominated by buses through State Road Transport Corporations," said Anand Rao from ASRTU.

"150,000 buses are operated by the 70 public sector State Transport Undertakings (STUs) and Transport Corporations. These buses operate about 12.1 billion kilometers a year and carry over 70 million passenger trips a day. This is nearly three times the passengers carried by the Indian railways ».

In 2016, Busworld India hosted 72 exhibitors from nine countries covering an area of over 7 thousand square meters. More than 4 thousand professionals and representatives of the media took part to the event.
